

# 1.5kW Smoke Machine

- Economical price point
- 1,500 watt heater
- DMX control interface
- Digital timer remote control
- Precise variable output from 1 - 100%
- 6 litre fluid tank
- Optional wireless remote
- Choice of special effect smoke fluids from very quick dispersing to long lasting

Offering stability, durability and reliability - when it comes to performance and precision control for an economical price, our 1.5kW Smoke Machine will suit many applications. These foggers provide significant advantages in a wide array of applications where controllable volume of fog output is critical. The heater block is made of nickel-aluminium alloy adopted for fast and efficient heat transfer. Smoke output is fully controllable via a state of the art digital LCD remote control (included) allowing the operator to set the output volume control and timing precisely to the exact percentage from 1% to 100% output. The remote can be conveniently 'parked' on the back of the machine for storage. DMX connection can be worked by either 3 or 5 pin connector, if required.

Ideal for special effects, large venues, outdoor events (although not weatherproof), movie productions or for fire training.

- Power: 230V
- Heater: 1,500W
- Output: up to approx. 700m<sup>3</sup>/min. (20,000 cu.ft./min.)
- First Heat-Up Time: 8.5 min.
- Tank Capacity: 6 Litres
- Fluid Consumption Rate: 111ml/min. (100% Output)
- Fluid Consumption Rate: 34ml/min. (30% Output)
- Weight: 14 Kg
- Dimensions (cm): L68.8 x W28.5 x H18.8

#### Digital LCD Timer Remote (included):

- Cable Length: 25 ft.
  - Connector: 5 Pin XLR
  - Function: Timer with interval, duration and volume; set DMX address; functions are displayed on a LCD screen and can be set precisely in seconds or %. 1 to 200 second variable asymmetric on/delay time.
- Continuous output flow at approx. 30% (34ml per minute).

Supplied by Pea Soup Smoke Machines, Great Britain.
