

Presents The DRAINTESTER

If you'd like a user friendly, effective and non toxic means of introducing smoke into drains, the DRAINTESTER meets those needs. Ideal for pest controllers and drain specialists.

THE DRAINTESTER

- Clean, simple and cost effective, with a **5 year parts warranty**
- Produces smoke on demand
- Can be user "off power" for a time once pre-heated
- Uses re-sealable aerosols to produce up to 15 minutes of smoke at full output

THE BENEFITS

- Drastically reduced running costs
- User friendly
- Greatly enhanced performance compared to existing methods

THE SMOKE

- Can travel through hundreds of metres of drains
- Dense, highly visible, with a distinct odour
- Is water based, non toxic and completely controllable

"an invaluable tool for solving rodent and odour problems"
