

Pea Soup's

Micro Rocket

12V DC Portable Smoke Machine

The **Pea Soup Micro Rocket** is perfect for situations where a small amount of smoke is required for special effects in props, costumes or scenery where no power is available. It is capable of producing a steady stream of smoke, if required, for up to 10 minutes of continuous use on a fully charged battery (supplied), or unlimited use when connected to the optional mains adaptor (a full reservoir of fluid will last approx. 50 minutes). The smoke produced disperses quickly.

The unit is compact in size (L 22.7cm x W 6.6cm x H 11cm) and very simple to use.

The unit has switch to allow for momentary fog production, or latching (continuous) output until button pressed again.

The Micro Rocket is very easy to carry and operate. The fluid tank on the unit is specially designed to allow the unit to be operated at a wide variety of angles.

Kit comprises:

- 1 X Pea Soup Micro Rocket smoke machine
- 1 X 12V DC Battery
- 1 X Battery charger and lead
- 1 X 500ml container of smoke fluid (enough for 250 minutes of fog)
- 1 X Flight/carry case with handle

Optional Extras:
