

MATERIAL SAFETY DATA SHEET
C.O.S.H.H.

Product Name	Global Smoke Fluid [Code No. 2924]
Chemical	A colourless, viscous liquid miscible with water, hygroscopic with no odour
Physiological Data	This product is not listed as a dangerous substance in the EEC directive that deals with the packaging and labelling of dangerous substances. Used in the Plastics Industry as a mist to disinfect the air.
Irritant Effects	Nil for eyes and skin [separate components and final mix]
Chemical	Proprietary Mix
Physiological Data	This product is not listed as a dangerous substance in the EEC directive that deals with the packaging and Labelling of dangerous substances.
Flash Point	Non indicated by <i>The Merck Index (ninth edition)</i>
Boiling Point	187 Celsius 285 Celsius
Irritant Effects	Nil for eyes and skin [separate components and final mix]
Toxic Data	Proprietary chemical 'a' taken internally is harmless, probably because its oxidation yields pyruvic and acetic acids. <i>cf</i> Whitmore <i>Organic Chemistry</i> (New York 1951). Proprietary chemical 'b' LD50 oral for rats 22g/kg – extremely low.

C.O.S.H.H. indicate that there is no short term exposure limit associated with this product

Technical protective measures (bulk barrels) in line with all chemical products, ensure good room ventilation and do not leave containers open.

PAGE 2 (Global)

First Aid	If swallowed it is very unlikely that harm will result. Wash eyes with plenty of clean water. In the unlikely event irritation should occur, seek medical advice. Wash contaminate clothing with ordinary soap and water
Industrial Hygiene	The usual safety precautions relating to chemicals should be observed
Disposal	Can be burned in incinerators with household refuse
After Spillage	Take up with absorbent material and dispose of according to instructions
Storage	Store containers in a cool place. Keep apart from oxidising materials
Handling	No special handling precautions are required but it is good practice to wear rubber gloves. As with all chemicals, eyewash with clean water should be readily available
Road Accidents	Observe the usual precautions Stop the engine Notify the police & fire brigade Warn other road users and keep public away from the area. Its presence on the road surface may increase the tendency to skid. Transfer as much as possible to other containers and flush away any residue with plenty of water.
Transport	This product is not regarded as hazardous for transportation
