

Pea Soup S-HAWK Thermal Fogger

**FAST...EASY STARTING
EVERY TIME!**

- Weighs less than any machine of its size in the world
- Can be started from a variety of battery sources
- Patented fuel priming system eliminates need for pressurised fuel tank
- 12 volt starting system ensures reliable starting even when battery power declines!

ULTRA LIGHT-WEIGHT...COMPACT SIZE

Pea Soup S-Hawk

Portable Thermal Fogger

The Pea Soup S-Hawk is the machine of choice for Health Ministry Officials, Mosquito Control Departments and Disease Control Programmes worldwide.

Its lightweight and ability to produce large volumes of fog make the Pea Soup S-Hawk ideal for use in both local and remoter areas.

Built to rigid quality standards and backed by more than fifty years in the Disease Control business, the S-Hawk has proven to be an essential part of any program where performance, simplicity and reliability are required.

**Complies with Specification
WHO/VBC 89.793 of the World
Health Organisation**

Performance of Combustion Chamber	22 kW/hr 18900 Kcal/hr
Solution Output	0—42 L/Hr
Solution Tank Capacity	4.5L (aluminium)
Solution Tank Pressure	0.28 Bar
Fuel Tank Capacity	1.1L Aluminium
Fuel Tank Pressure	0 (zero)
Fuel Consumption	1.9L/Hr
Ignition Source	Buzzer Coil
Air Intake Filter	Yes
Batteries	D Size 8 x 1.5v
Auxiliary Start	Yes
Weight Empty	7.5kg
Dimensions (cm)	132 x 24 x 36
Shipping Size (cm)	140 x 28 x 41
Shipping Weight	14.32 kg
Shipping Volume	0.15m ³
